Makineden Buluta

Entegre Uzaktan
Erisim

Tam Tesekkullu
IoT Platformu

Acik ve
Gelistirebilir

Makineden buluta

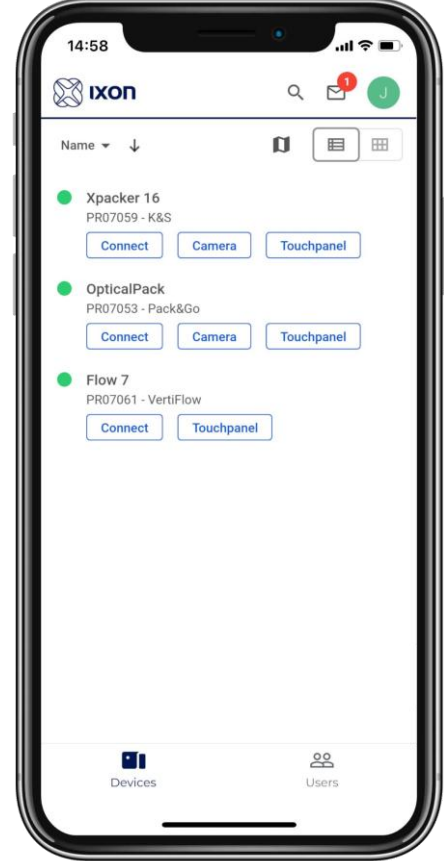

- Surekli iletisim
- Guvenli
- Kolay kullanim

Entegre uzaktan erisim

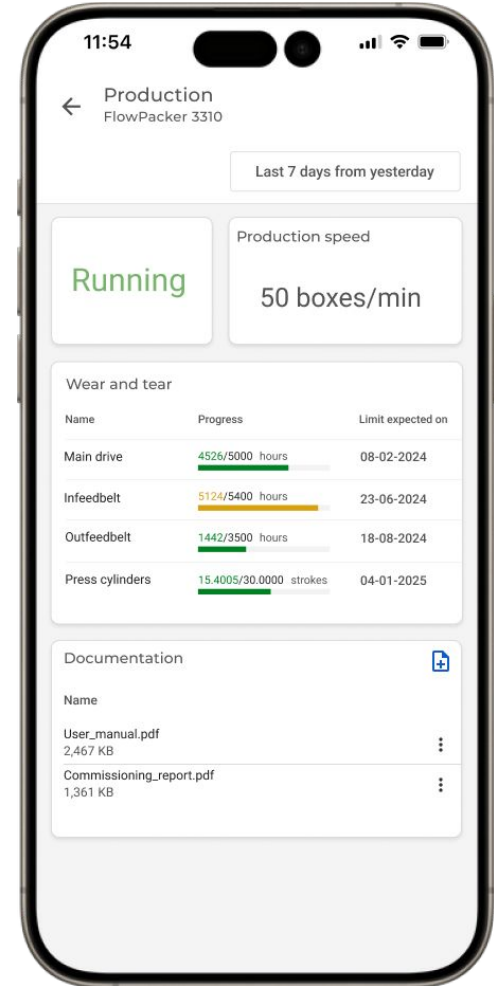

- Her sey tek bir platfromda
- Musteri odakli
- Ucretsiz

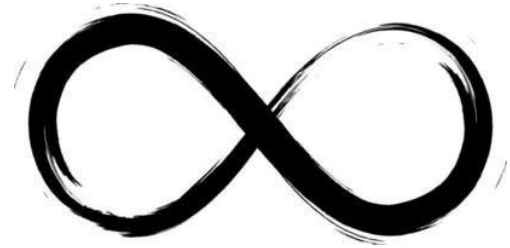

Tam tesekkullu IoT platformu

- Kucuk baslayin, hizli ogrenin
- Ihtiyaciniz olan her sey
- Beyaz etiketleme

Acik ve gelistirebilinir

- Her seyle entegre edin
- API'lar ve web bilesenleri
- Sinirlamalara takilmayin

IXON Cloud

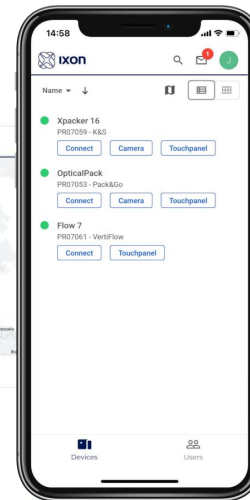

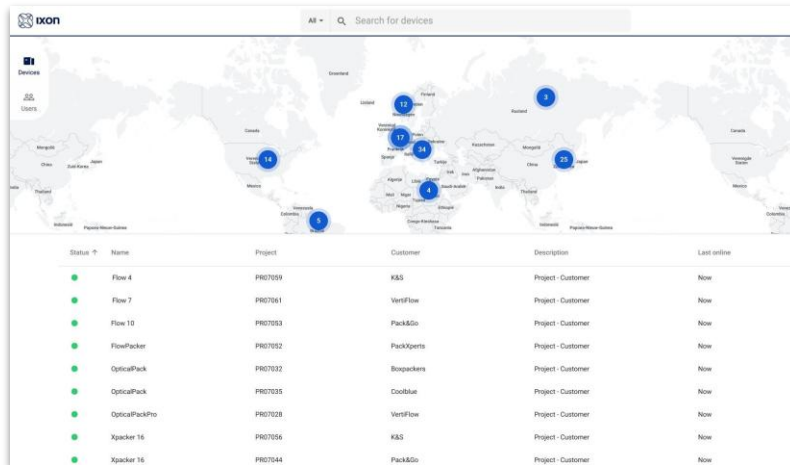

Standard

Premium Remote Access solution. Secure access for you, your suppliers and customers.

Includes:

- ✓ Unlimited users and machines
- ✓ Unlimited concurrent connections
- ✓ VPN access
- ✓ WebAccess (webVNC and webHTTP)
- ✓ Map view
- ✓ Fleet management
- ✓ SSO with Google and Microsoft
- ✓ IXON Smartphone app
- ✓ Advanced user and device management
- ✓ 2-factor Authentication
- ✓ Remote Firmware Upgrade
- ✓ Support during business hours

Free

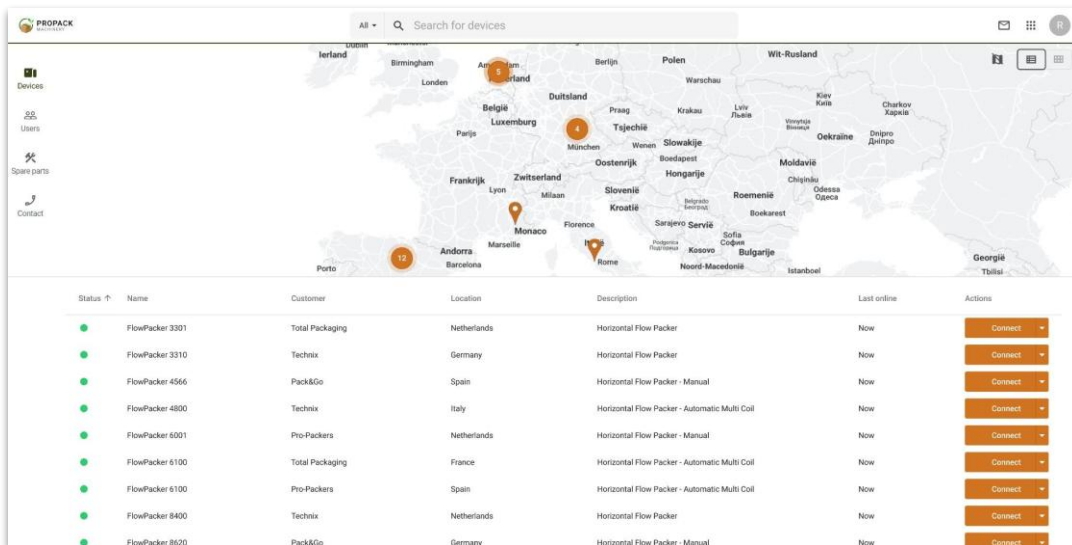

IXON Cloud

Advanced

More extensive management of your machines and subcontractors.

Includes:

- ✓ Everything from Standard
- ✓ White labelling
- ✓ Temporary Access
- ✓ LAN Access Management
- ✓ Custom fields
- ✓ 10GB file storage

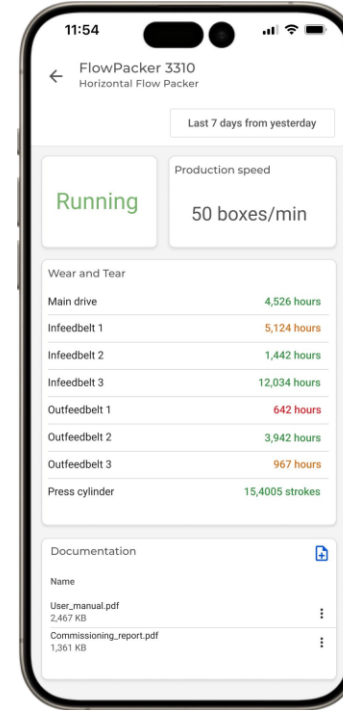

IXON Cloud

Professional

Data insights and notifications for everyone to minimise downtime.

Includes:

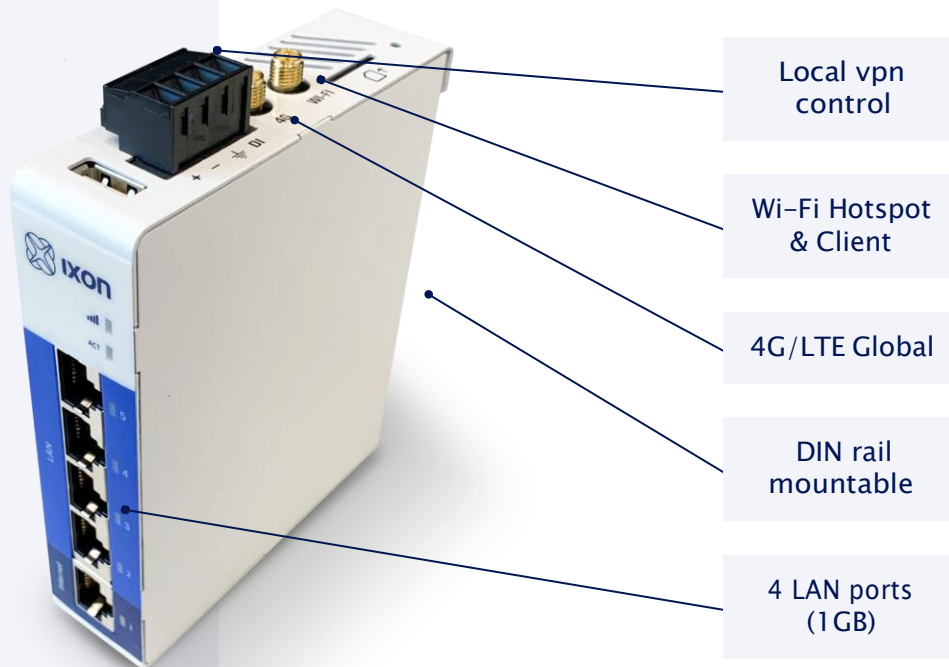

- ✓ Everything from Advanced
- ✓ Your own domain
(e.g. login.yourcompany.com)
- ✓ Live Machine Data view
- ✓ Machine Cards in the overview
- ✓ Drag & drop widgets
- ✓ Alarming for all machines
- ✓ Connection monitoring for all machines

IXrouter3 Edge Gateway

- Automatic failover
- Edge processing capabilities
- Major industrial protocols supported
- Local web interface
- Fast Cloud registration via USB
- Firmware upgrade Over The Air (FOTA)

Available in different configurations,
with and without Wi-Fi or 4G/LTE.

IXON Cloud is the **all-in-one** IoT platform for the Machine Builder

The screenshot shows the IXON Cloud dashboard interface on a laptop. The dashboard is organized into a grid of widgets for two companies, Company A and Company B. Company A's widgets include 'Machine truck development' (with a 3D model and 'VPN Connect' button), 'Production machine' (showing '935 pcs' and 'ControlPanel A/B' buttons), and 'Assembly line' (with a gauge chart showing '82.18%' and 'ControlPanel E' button). Company B's widgets include 'Testing device' (showing '235.147.813 pcs') and 'Propack machinery - #project A' (with a bar chart for 'Running', 'Stopped', and 'Planned' status). Callout boxes with lines pointing to specific elements are present: 'Logo + url' points to the top left header; 'Access for customers' points to the 'Users' icon in the left sidebar; 'VPN - Remote Access' points to the 'VPN Connect' button in the 'Machine truck development' widget; 'Machifie Data' points to the gauge chart in the 'Assembly line' widget; and 'Drag & Drop widgets' points to the widget grid area.

Kendi Uygulamanizi Makinenizle Sunun

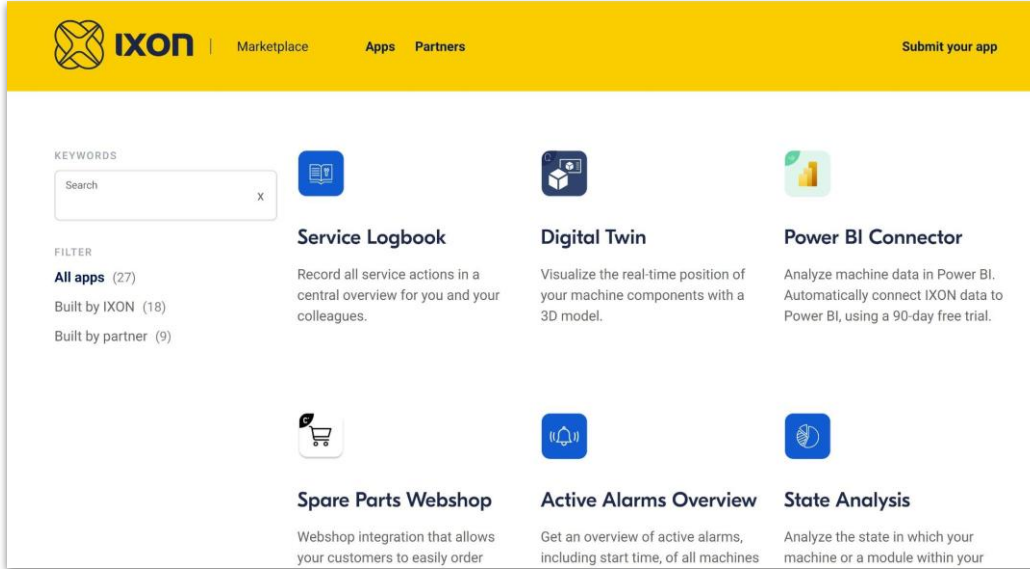

General Presentation

IXON Cloud'u genişletin

<https://marketplace.ixon.cloud>

IXON Marketplace

Standart IXON Cloud özellikleriyle karşılanmayan belirli ihtiyaçlarınız mı var? IXON Pazar Yeri'nde ek fonksiyonları ve iş ortaklarının tekliflerini keşfedin.

Kendi Uygulamanızı Oluşturun

Hâlâ aradığınızı bulamadıysanız, endişelenmeyin – size kendi kişiselleştirilmiş IXON uygulamanızı oluşturmanız konusunda yardımcı olmak için buradayız.

¹ The App Engine license is required to develop your own app within IXON Cloud.

Product Support

Unlimited email and phone support during office hours.

Trainings

Trainings and workshops for a quick and effective start.

Legal & Security Desk

Get assistance with Cybersecurity, IEC-62443, GDPR, NIS, data ownership, IT risk questionnaires, and more.

Solution Engineering

Evaluate technical feasibility and define project requirements.

Development Support

Access code examples, receive 1:1 development assistance, and undergo code reviews for quality, security, and performance.

Integration Partners

Global network of integration partners for App development and Business Consultancy.
